QUALITY

MADE IN **GERMANY**

Every day, millions of people open their cupboards – and experience a little piece of Vauth-Sagel. What seems so natural in everyday life begins with passion at our company: 850 dedicated individuals produce over 85 million quality products – in Germany, with precision, innovation, and heartfelt commitment. Our storage solutions are more than just functional products.

They create order, offer comfort, and help transform living spaces into places to truly live in. Whether in the kitchen, living room, bedroom or bathroom – today, the boundaries between living areas are increasingly fluid. Our solutions blend in seamlessly and make every home that little bit more liveable. And that's exactly what inspires us – every single day.

VAUTH SAGEL QUALITY MADE IN GERMANY

WARRANTY

MADE TO **LAST**

We offer a 15-year warranty on all our products, reflecting our commitment to quality, durability, and customer satisfaction.

[4] Beverungen, NRW

VS CORNERSTONE® MAXX IS AN IMPRESSIVE AMBASSADOR OF GERMAN DESIGN COMBINED WITH HIGH ENGINEERING SKILLS.

WHAT MAKES US EXCELLENT:

EXCELLENT DESIGN!

Design begins where everyday life takes place. When buying a kitchen, the focus is usually on the exterior. But true design often reveals itself only when opened – inside the cabinets, in the quiet motion, in the sense of quality with every touch.

Our storage solutions combine aesthetics with functionality, bring order with style, and turn the interior into a genuine experience.
Colours, materials and forms reflect the exterior design – and carry it through seamlessly.
This way, every movement becomes an expression of comfort.

And the home becomes a place that not only looks good – but feels that way too.

SUSTAINABILITY

SUSTAINABILITY – PART OF OUR EVERYDAY PRACTICE

Responsibility for people and the environment is deeply embedded in our corporate philosophy and is inseparably linked to our success.

That's why we invest specifically in resource-efficient technologies and processes. With measurable results that show what's possible:

- 50% energy savings through the switch to LED lighting
- 44% savings achieved by optimising our compressed air system
- 35% reduction in material usage thanks to modern powder coating technology

These achievements reflect the path Vauth-Sagel is taking: Towards an efficient, sustainable circular economy and in turn, a healthy environment with clean water, fertile soil and pure air.

ACTIONS TAKEN AT OUR FACILITIES

Sustainable heating

Identifying potential savings in the compressed air system

Reducing electricity consumption

Resource-efficient coating technology

Generating electricity through photovoltaics

intelligent building and energy management

Sustainable fleet management

EXPLAINING

SHOP-IN-SHOP DISPLAYS
A modular, compact eye-catcher that showcases our products in a self-explanatory way.

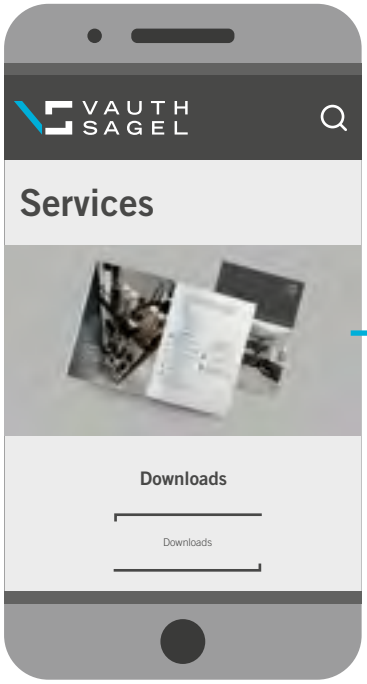

BENEFIT SHEETS
Highlighting the benefits for end consumers and installers at a glance.

SAMPLES
To make our products tangible, we can provide our partners with product samples.

PLANNING

DIGITAL CATALOGUE
In the product section of our website, you will get an overview of the products we offer. The various filters will guide you to your chosen product. The photos, videos, and product descriptions provide you with essential information to help you appreciate the features and benefits of each product.

PRODUCT CONFIGURATOR
Using our product configurator, you can quickly and easily display cutting lists and drill data individually adapted for your cabinet, and receive "tailored" support as you install our products.

WEBSITE
On our website, you will find all tools in a consolidated format.

Website link: vauth-sagel.com/gb/en/service

TRAINING

VAUTH-SAGEL WEBINARS
Receive qualified product and installation training through our online webinars.

SHOWTRUCK:
Discover the quality and functionality of our products right at your doorstep. Our specially selected portfolio offers you and your customers the opportunity to experience our solutions first-hand. Benefit from practical product demonstrations, tailored training sessions, and focused sales support – all in close collaboration with our experts.

Delivered via our Showtruck – a fully equipped mobile showroom that brings our innovations directly to your premises.

INSTALLATION

MOUNTING TEMPLATES
To assist you in determining the drilling points, we have developed mounting templates for a variety of our products to make the installation easier for you. They are included in the package.

DRILLING DATA
You can find the drilling data for your CNC machine on our website in the product section.

INSTALLATION VIDEOS
Use our installation videos for easy assembly of our products. You can find the videos (if available) on our website, our YouTube channel, or as a QR code on the installation instructions.

ASSEMBLY INSTRUCTIONS
Our assembly instructions provide a step-by-step explanation of how to install our products. They are included in the package and can be downloaded from the product section of our website.

AFTER SALES

SPARE PARTS LISTS
Even the most durable product is not immune to wear and tear. Should you ever need a replacement part, our spare parts lists will assist you. You can find them on our website in the product section.

TECHNICAL SUPPORT
Scan to view and download assembly instructions, drilling data, and spare parts lists.

SUSTAINABLE. PROTECTIVE. CONVENIENT.

For us, top quality and maximum everyday practicality don't start with the product alone. We also focus on smart, user-friendly packaging – designed for easy handling and seamless use. That's why we're continuously refining our packaging solutions – with the aim of not just meeting your expectations, but exceeding them.

Because your satisfaction matters – in every detail.

Individual parts are packaged securely to prevent slipping and damage during transport

Maximum protection through use of high-quality cardboard

Drop tests to ensure our packaging can withstand high loads

Branding and graphics provide clarity, order and a high-quality appearance

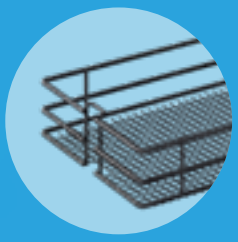

GREATER EFFICIENCY – LESS MATERIAL CONSUMPTION

From product development and manufacturing to packaging, we take a holistic approach – always with people and the environment in mind. This also applies to everything that happens during transport.

Today, our packaging is significantly more efficient and sustainable – thanks in part to:

- Less plastic, more cardboard: Using cardboard inserts instead of plastic filling materials
- Space efficiency: Optimised use of available packaging volume
- Sustainable materials: Use of recyclable packaging solutions

Product

Assembly instructions

Hardware (if provided)

COMPONENTS

Most VS products are delivered in multiple boxes – typically:

- one box containing the frame and runner systems
- another box containing the trays

Depending on the product, delivery may consist of just one box or up to five boxes to optimise your stock holding efficiency.

Label

Drilling template (if provided)

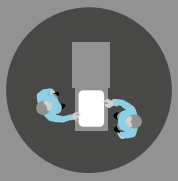

PRODUCT BENEFITS

Our storage solutions make everyday life easier – and that's what makes all the difference. Tangibly so, every single day. They create order, provide clarity, and give you more time for the things that truly matter. Because: **Comfort makes the difference.**

EVERYDAY COMFORT

SAVE TIME
More time for what matters – because everything is right where you need it.

OPTIMAL ACCESS
Everything within easy reach – no bending, no rearranging.

COMPLETE VISIBILITY WITH ONE PULL
One glance is all it takes – nothing remains hidden.

INTEGRATED SOFT AND SELF-CLOSING
Smooth, quiet, effortless – for that extra touch of comfort.

COMFORT DURING INSTALLATION

RETROFIT READY
Can be retrofitted in no time – for new organisation in your existing home.

INSTALLATION TEMPLATE
Thought through to the last detail – for quick and simple installation.

ENVI = “environment”

VS ENVI® - WASTE BIN SYSTEMS

Hygiene, environmental awareness and sustainability play a central role in the kitchen – especially when it comes to waste disposal. What are needed are well-designed solutions that maintain cleanliness and enable flexible waste separation. This not only keeps the kitchen hygienic and tidy, but also helps protect the environment.

WASH = “washing”

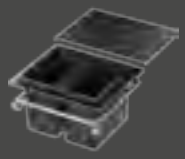

VS WASH® – LAUNDRY HAMPER

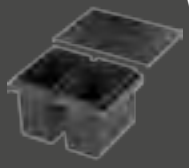

The VS WASH® systems are the neat solution for dirty laundry. These systems keep unsightly laundry organised and concealed, allowing it to be sorted, stored and moved with ease and discretion. The laundry system is perfectly integrated into any utility room. Technically and visually, VS WASH® systems are based on the proven waste separation systems of the VS ENVI® range, creating a uniform look for both recycling and laundry solutions.
The new laundry hampers come in a unique variety of types and are perforated to ensure optimal air circulation. The perforations are even rounded on the container interior, making a unique contribution to the gentle handling of laundry. Thanks to the handles, the way to the washing machine is easier than ever before – even with two laundry hampers at once. The ventilation perforations are engineered to be super smooth to avoid damaging delicate laundry.

VS

COR

COR = "corner"

VS COR® - CORNER CABINETS

A corner cabinet is not simply a cabinet placed in a corner. With this conceptual approach, we have developed cabinet solutions that not only optimally utilize angled spaces, but instead put the corner right in the centre of the kitchen experience. As a result, we open up unseen perspectives in the kitchen and allow people to experience space in a new way.

- Storage versions: Premea, Unero® and Planero®

PAM: POWER ASSIST MECHANISM –
Smooth Movement for Ultimate Comfort

Maximum ergonomics and effortless handling: Our Power Assist Mechanism (PAM) ensures smooth and even movement, reduces physical effort, and provides comfortable operation – perfect for everyday use in a modern kitchen.

- Easy opening and closing: The fluid damping cylinder supports the swivelling in and out and gently slows it down.
- Optimised power transmission: Ensures smooth and even movement with minimal effort.
- Durable & reliable: Tested to withstand the highest loads.

- Finish: silver, lava, platinum
- Base colour: grey, lava, white

VS LARDER POWER MOVE

PUSH TO OPEN.

SUPPLEMENT FOR
VS TAL® LARDER
VS TAL® LARDER SPIN

The VS TAL® Larder Power Move has been developed to assist with the opening of Vauth-Sagel tall cabinet pull-outs and features the following performance characteristics:

- Easy opening of the tall cabinet through electromechanical support
- Load-dependent drive control
- Activation of the opening impulse by gently pulling or pushing the front
- Adjustable front gap at the drive
- Minimization of noise transmission to the cabinet body through rubber dampers
- Interruption of the pull-out process in case of blockage
- In the event of a power failure, the tall cabinet can be operated like a normal, non-assisted tall cabinet.

HEINRICH SAGEL (LEFT) AND
HERMANN VAUTH (RIGHT)

Everything starts with an idea. An idea that we believe in, that drives us every day and that surprises and excites us again and again.

We want to create high-quality system solutions for living spaces. For everyone.

The idea that Hermann Vauth and Heinrich Sagel created in 1962, and that we still hold on to today. Every day. To us space is in the eye of the beholder. We see solutions where others look away. We never rest on our laurels. We are always thinking one step ahead and looking for new challenges in order to recognize and redefine the living spaces of tomorrow and to facilitate and beautify everyday life.
